ICCIP®

2024 the 10th International Conference on Communication and Information Processing

Lingshui, Hainan, China / November 14-17, 2024

Track 6

5G/6G Sustainability and evolving ecosystems

5G and 6G networks represent key pillars in advancing telecommunications, and their role in fostering sustainable ecosystems is crucial as the world faces growing environmental and societal challenges. Possible topics are as follows, but not limited to them.

Topics include, but not limited to:

Sustainability in 5G/6G network

- Energy Efficiency
- Green infrastructure
- Reduced E-waste
- Support environmental goals

Evolving ecosystems of 5G/6G

- New business models and ecosystems
- 5G/6G Provisioning and vertical ecosystems
- 5G/6G hyper-connected systems
- Artificial Intelligence and Edging Computing
- Decentralized Network and Blockchain
- Human-Centric Design

Special Session Organizer(s):

Tianjian Yang
Beijing University of Posts and Telecommunications

Submissions

Submit method: http://iccip.org/submission.html
Submit full paper/abstract via online system: https://www.zmeeting.org/submission/iccip2024

Publication

ICCIP 2024 is to publish latest & high-quality research works on communication and information processing in theoretical and practical aspects. Submitted paper will be peer reviewed by conference committees. The accepted paper will be included into ICCIP 2024 Conference Proceedings, which will be archived in the ACM Digital Library, and indexed by Ei Compendex and Scopus
